I, (*print Name*) _____

Agree to hold harmless, not to sue, seek compensation or hold responsible, the Genesis Zoological Center Inc or International Market World Inc., for any injury, death, disfigurement, disablement or financial loss by myself or any of my family or loved ones.

I understand that working with native, domestic or wild/exotic animals can be dangerous. They can cause disfigurement, death, disability, etc.

I also understand that if I choose to work with injured and/or orphaned native wildlife, there is a small chance of transferring a virus/disease to pets at home through unwashed clothing/hands.

I agree that I fully understand this and am not under any pressure to sign this document and I am not signing this because I would sign anything to be able to be around these types of animals.
